SEE BEYOND LIMITS

Features

Cost Savings

Eliminate unnecessary on-site hardware and reduce maintenance costs.

Plug & Play

Get cameras up and running in minutes not hours.

Scalability

Add cameras effortlessly as your needs evolve

Automatic Updates

Stay current with the latest features all without lifting a finger

Instant Decision-Making

Process data at the edge for real-time alerts

Intelligent Chat

Based on state-of-the-art large language models, queries and respond in a natural way.

Reduced Bandwidth

Transmit only critical data to the cloud, ensuring efficient network usage.

Privacy Protection

Encrypted video and camera communication

Reliability

The camera can record and analyze the video during network outage

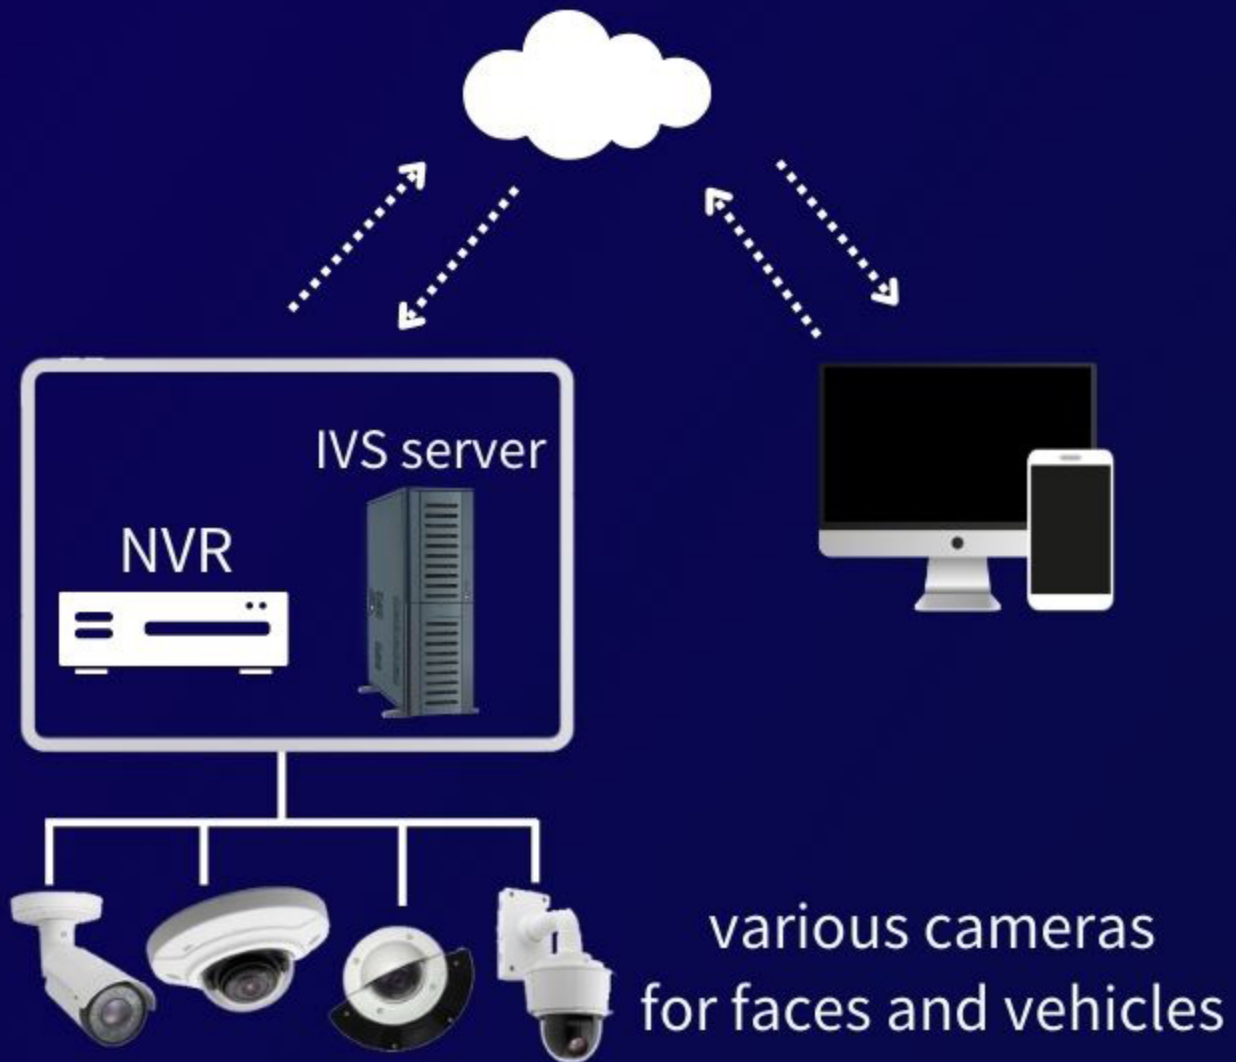

Anytime, Anywhere

Mobile app support, easy to view, search, and confirm alerts anytime

Traditional Commercial VMS

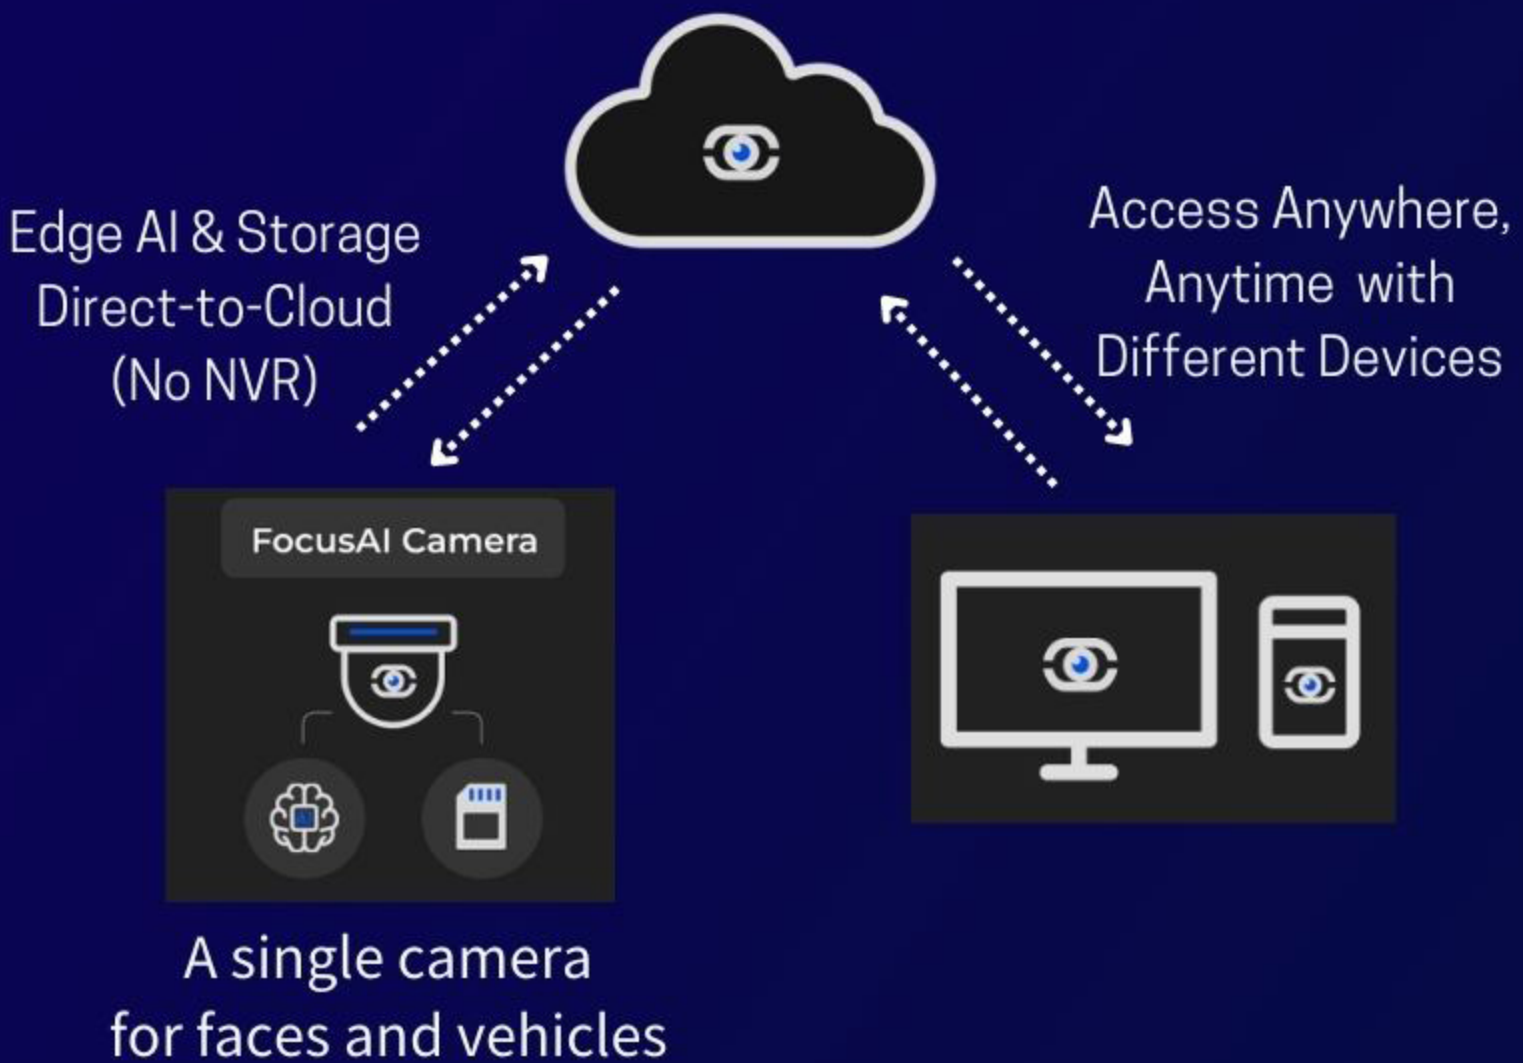

- High construction costs \ time-consuming
- Complex installation procedures

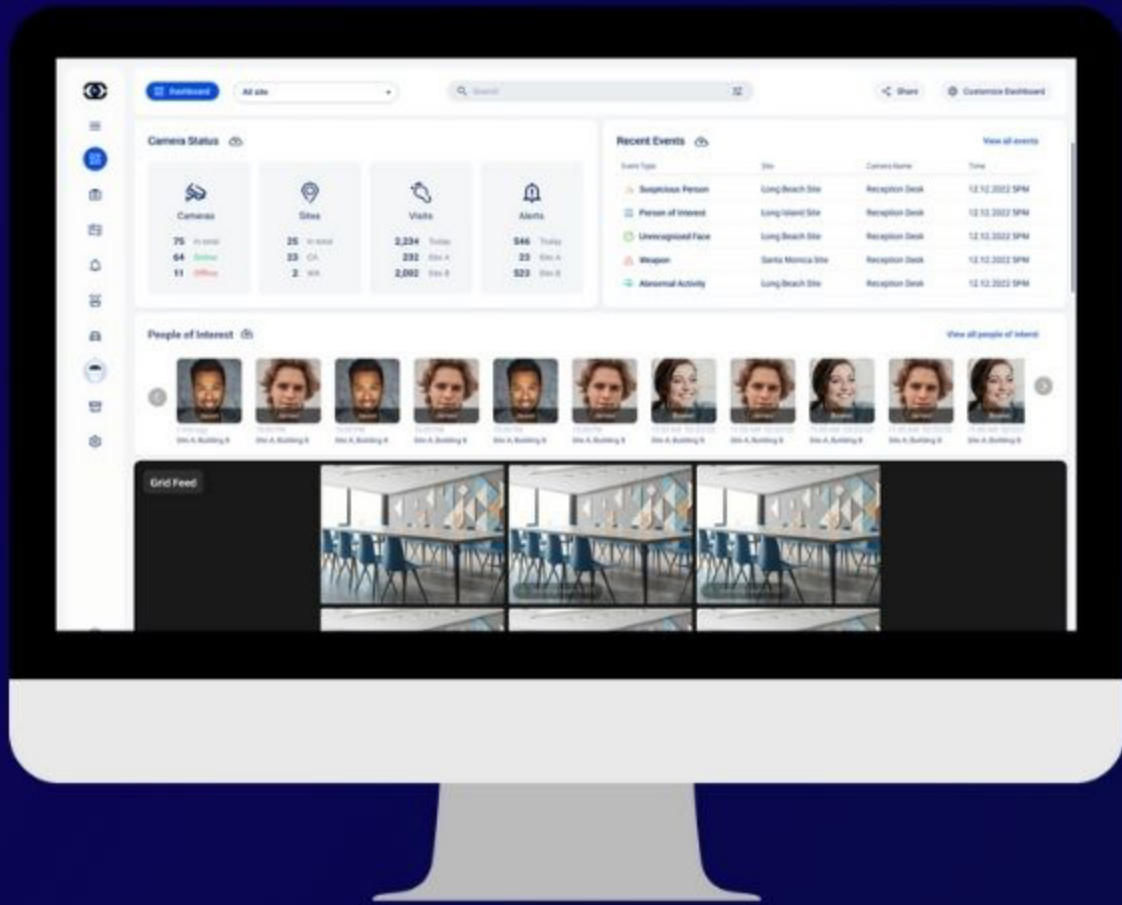

FocusAI Advantage

Direct to Cloud with Edge AI NVR IRRELEVANT

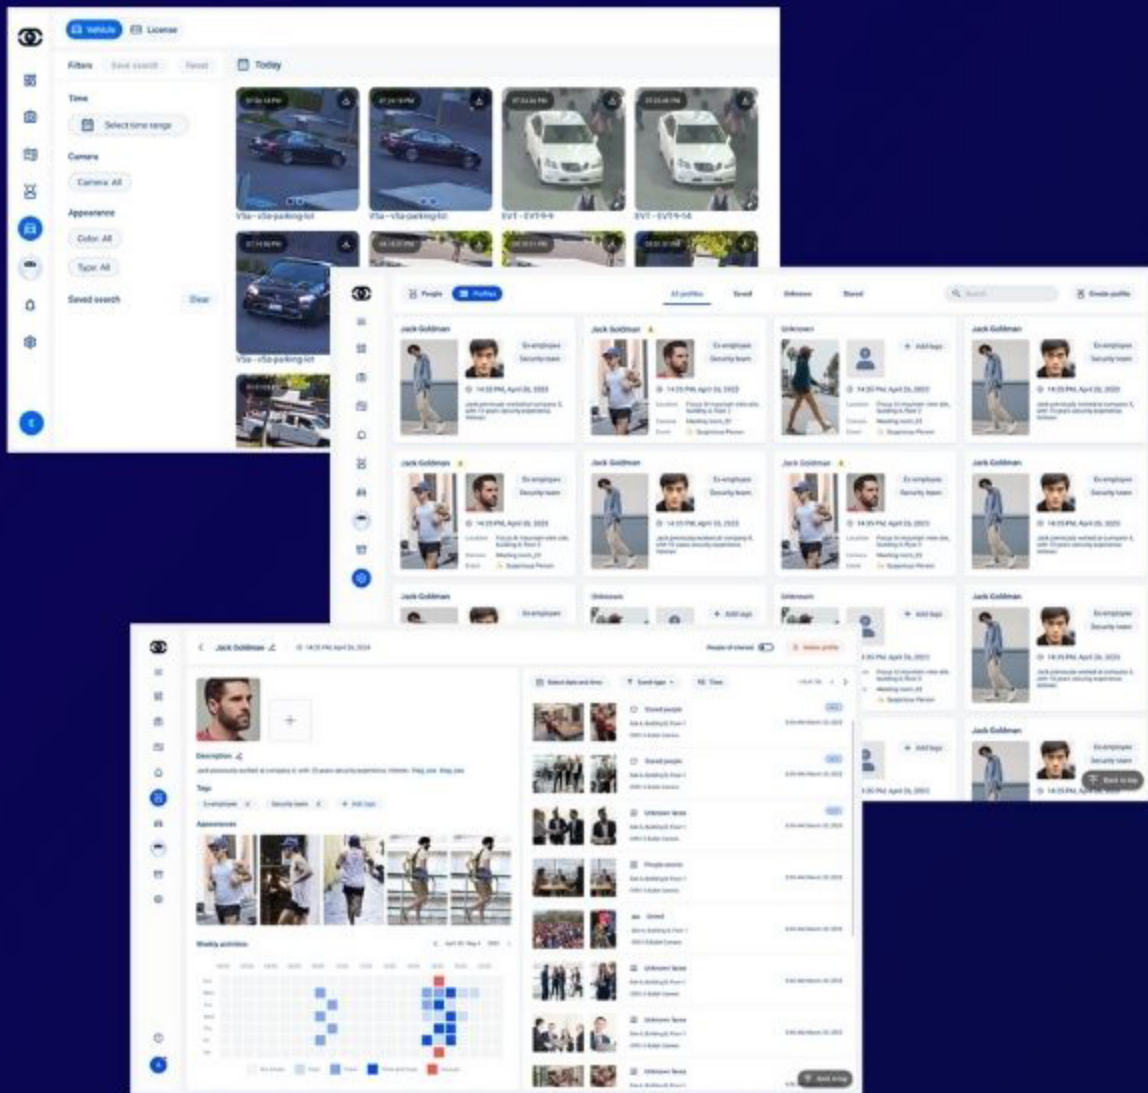

- Cost savings
- Easy Installation/Maintenance/Scalability
- Instant decision-making for real-time alerts
- Automatic Updates
- Minimum bandwidth
- Data Privacy
- Better AI on Uncompressed Data
- P2P Stream & Access Anywhere (No VPN)
- ESG spirit

Feature Rich, Easy to Use Dashboard

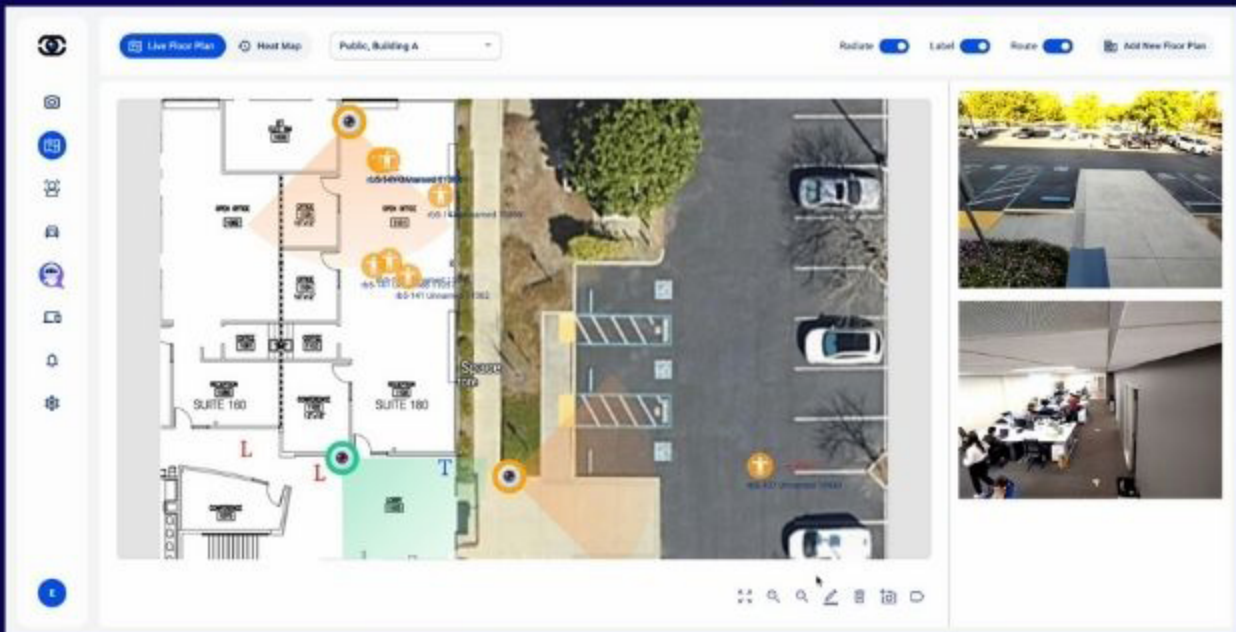

- Experience the benefits of a cloud based video security offering.
- See a centralized view of cameras and activity across multiple sites and buildings.
- Receive alerts and share live video via email, SMS, or through our app

Advanced Person & Vehicle Analytics

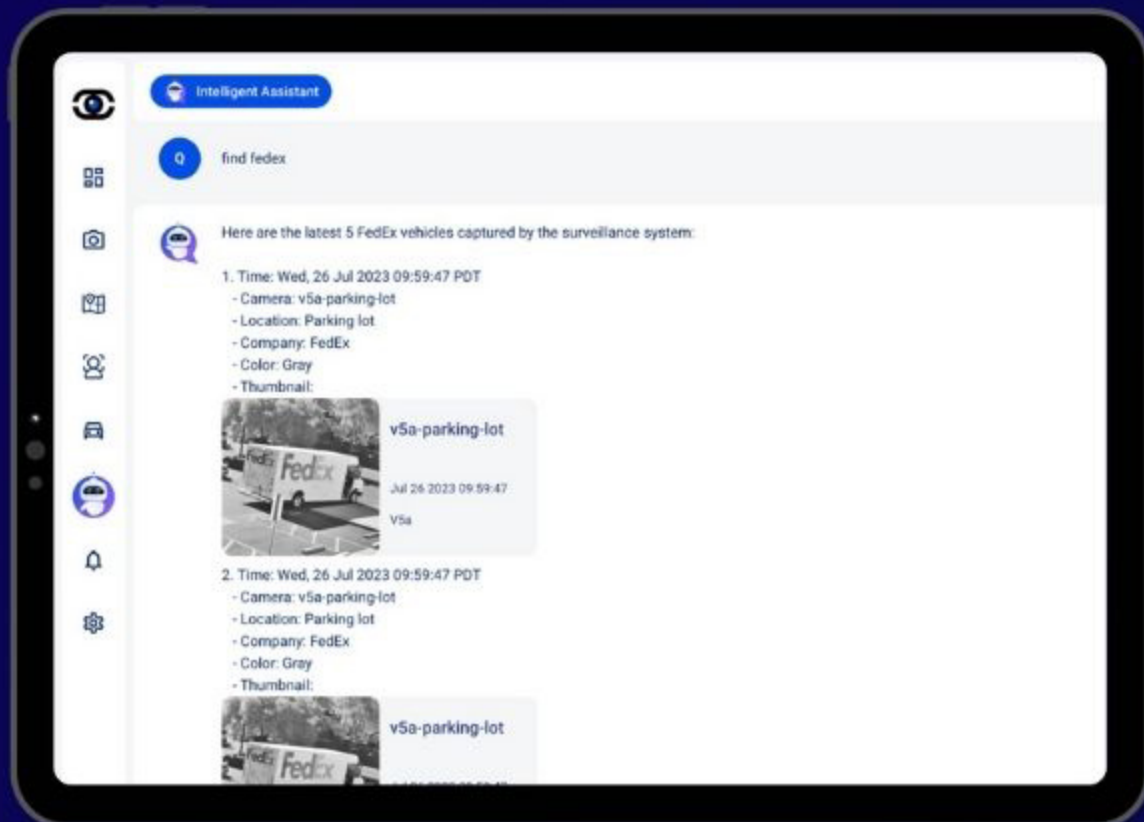

- All identified individuals and vehicles are extracted from the live video streams and catalogued into profile pages for easy access and search.
- Support advanced features such as motion search, license plate recognition, slip/fall detection(coming soon), and more .

Footprints/Heatmap

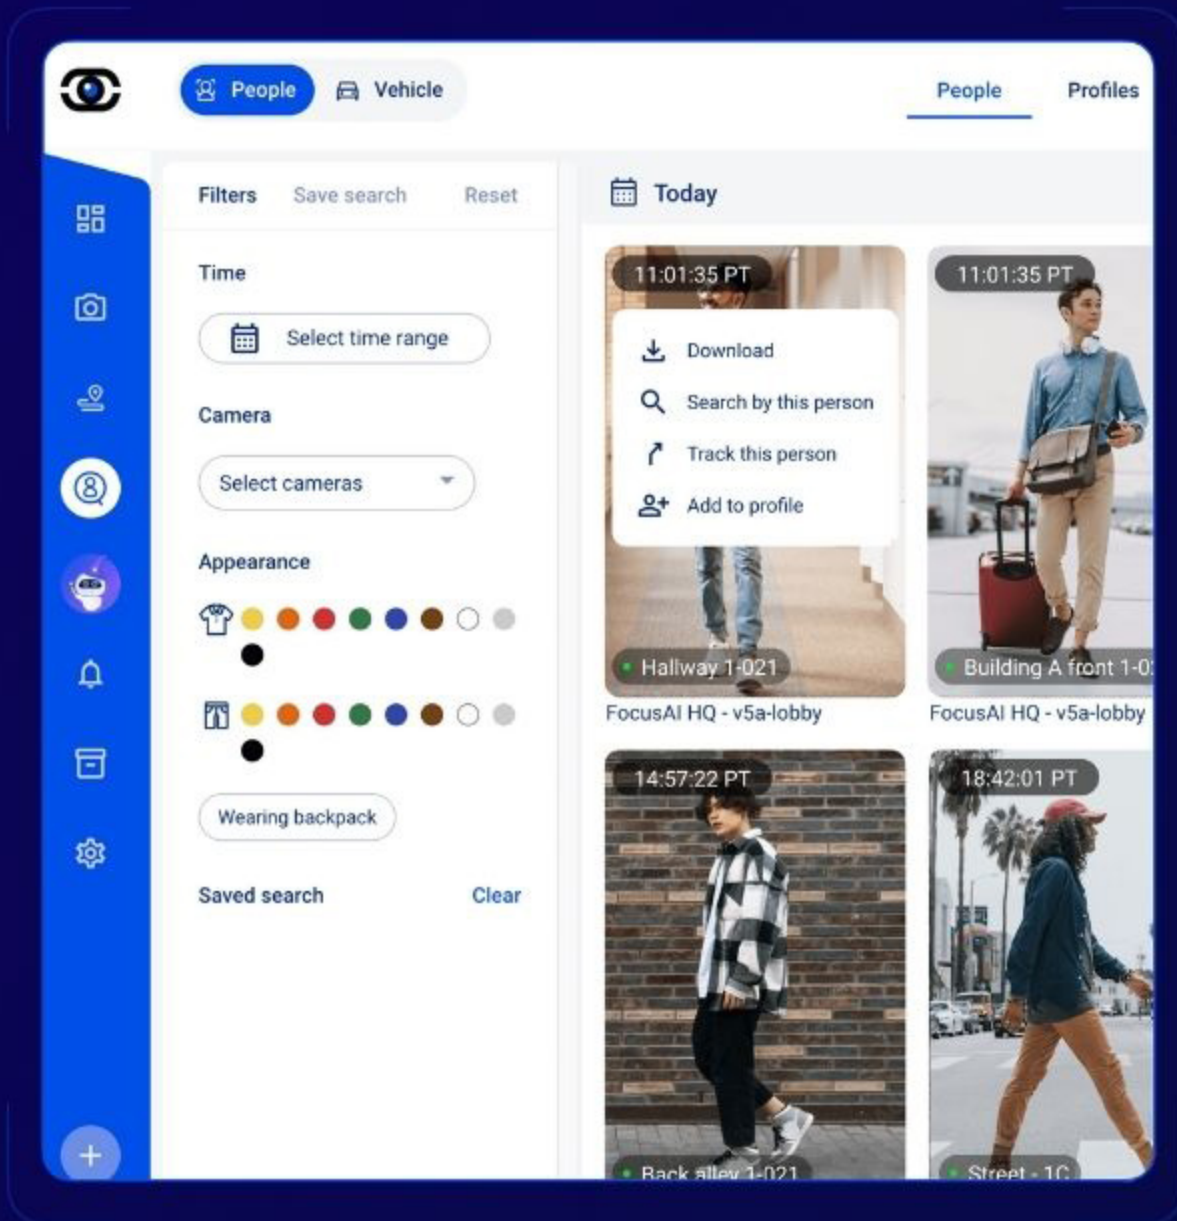

- Floor plan view for improved observation of your security environment.
- By using high frame rates and edge analytics, our system can live track people across multiple cameras, enabling advanced features like automatically tracking individuals of interest, whether associated to weapon detection or chosen by the user.
- Automatically switches between relevant cameras when tracking individuals or when people are detected.
- Tracking alerts will be sent and live streams can be shared.
- Retrieve historical location information for individuals.

Merlin - Your Security Assistant

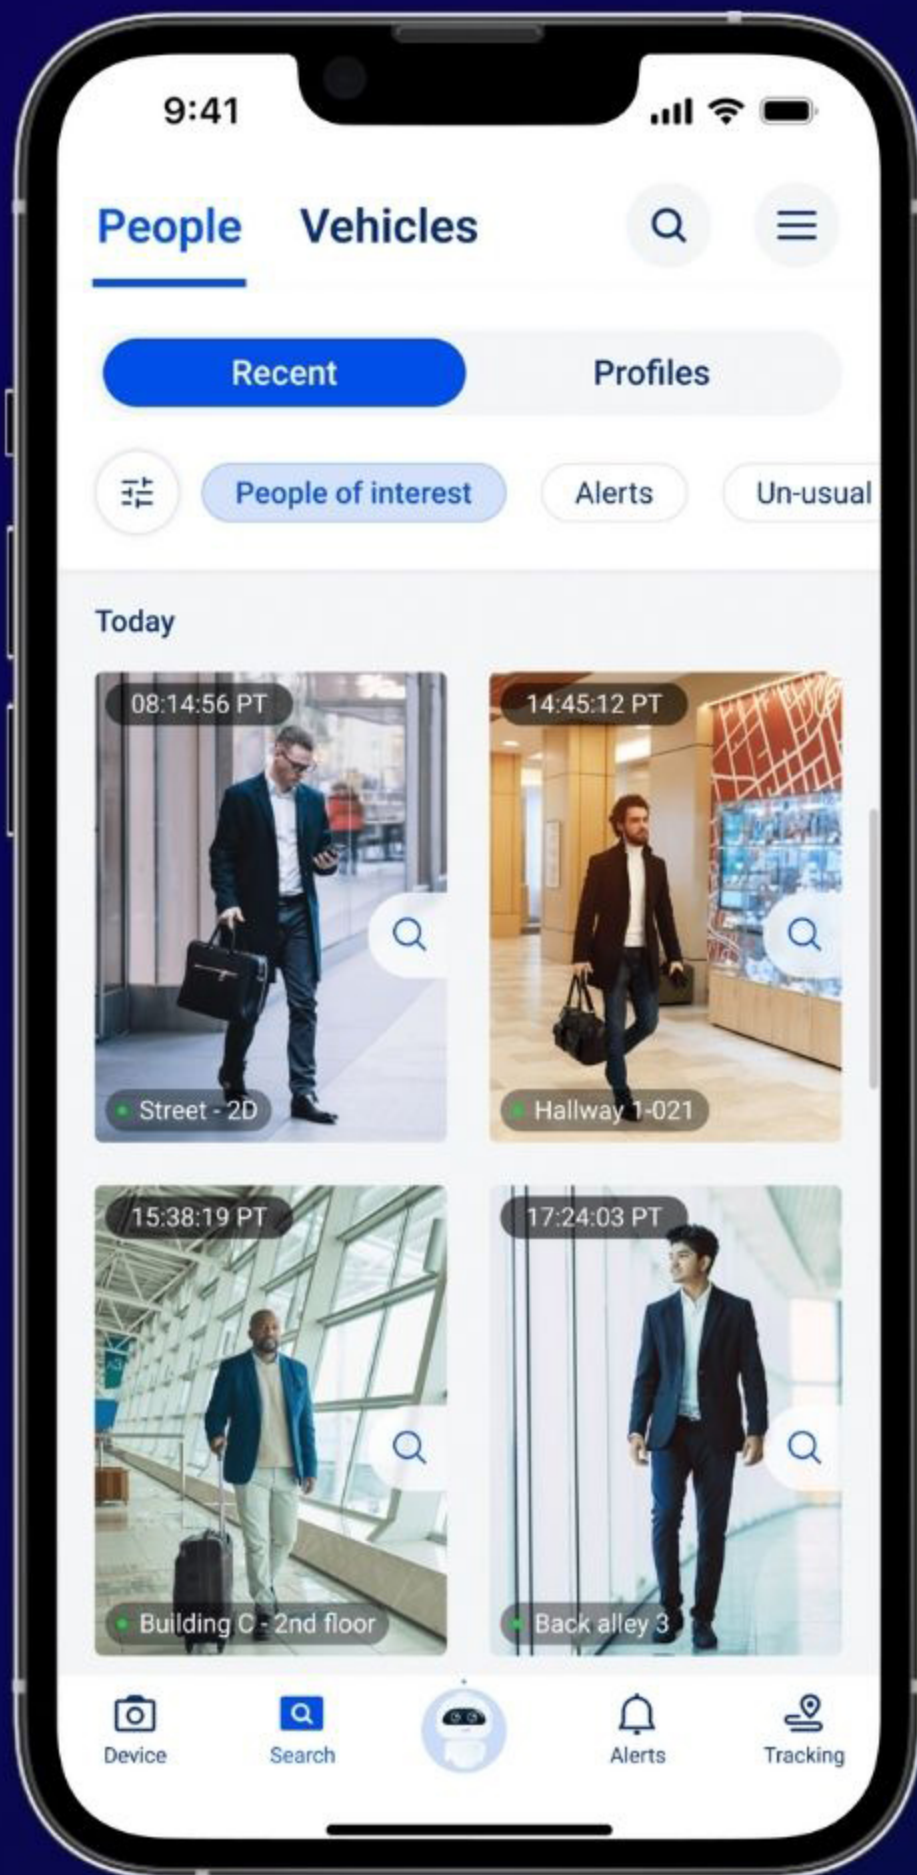

- The intelligent chatbot can process queries in natural language and respond accordingly.

Powerful Search

- Resolve incidents in minutes not hours by searching for people across your entire organization.
- Search for individuals based on face or appearance (e.g. the color of clothes)
- Supports reverse image search.
- Search for vehicles by vehicle type (car, truck, etc) as well as vehicle color.

Vantage Mobile

- View live video and search across all of your people and vehicle detections.
- Instant Footprints alerts for individuals of interest
- Review and acknowledge alerts and alarms directly from your mobile device

FocusAI Specification

- Sensors: 5MP (2688 x 1944)
- Lens Type: Fixed
- Focal Length: 2.8 mm
- Aperture: F2.0
- Field of View: H: 104°, V: 77°, D: 141°
- Infrared: IR Cut Filter (20 meter range)
- Storage: 256GB to 2TB
- Ratings: IK10 & IP67
